Synthetic aperture imaging radar signal simulation of urban environments

Thomas Stenson Moffat 11501

MEng final individual project report

Academic Year 2020-2021 Dr Robert Watson Wordcount:

Abstract

Contents

1	Introduction	2
2	Engineering Analysis	į
3	Methods	
	3.1 Exploration of Methods Used and Their Suitability	(
	3.2 Results and Outcomes	
	3.3 Milestones Achieved	
4	Deliverables	,
	4.1 Deliverables Achieved	'
	4.2 Significant Results	'
	4.3 Uncertainty	
	4.4 Final Results	'
5	Conclusions	;
	5.1 Final Remarks and Outcome	
	5.2 Further Work	/

List of Figures

Introduction

Part 2 Engineering Analysis

Methods

- 3.1 Exploration of Methods Used and Their Suitability
- 3.2 Results and Outcomes
- 3.3 Milestones Achieved

Deliverables

- 4.1 Deliverables Achieved
- 4.2 Significant Results
- 4.3 Uncertainty
- 4.4 Final Results

Conclusions

- 5.1 Final Remarks and Outcome
- 5.2 Further Work
